CAMBRIDGE BROADBAND NAMED IN TOP 100 EUROPEAN IT COMPANIES FOR THIRD YEAR RUNNING

Cambridge, 26 January 2005: Cambridge Broadband has been named by Tornado Insider among Europe's top 100 best performing private tech companies of 2004. Cambridge Broadband was founded in 2000 by an experienced team to create the most flexible broadband wireless platform with the lowest risk.

"All of us here at Cambridge Broadband are pleased to be on Tornado Insider's list for a third consecutive year", said Peter Wharton, CEO of Cambridge Broadband, "It endorses our continued philosophy of addressing the market with future-proof technology, which has still not been surpassed by any of our competitors."

The 2004 Tornado100 list can be found on the website of Tornado Insider (www.tornado-insider.com), and includes a profile of Cambridge Broadband.

"The companies Tornado Insider selected are Europe's technology stars," said Niels Valkering, Tornado Insider's Head of Research. "Combining internal analysis with advice from industry specialists, we identified the elite of Europe's high-tech entrepreneurial vanguard, appreciating excellence both in innovative, commercial and financial performance. Watch these companies in 2005, as the technology they are commercializing today will change tomorrow's trends."

The selection of the 2004 Tornado100 Winners from thousands of candidates was judged according to the following criteria:

- Delivering an innovation that shows the promise to set new standards
- Creating a major new audience
- Supplying a key piece of the ICT infrastructure
- Commanding a significant customer base
- Having the potential to become a global brand or standard
- Influencing a major market
- Receiving a significant amount of funding
- Having a strong valuation for a lucrative exit
- Having a management with previous successful exit experience

The list was announced during the Tornado Insider/World Financial Symposiums T100 Leadership Forum. This event took place 26 January, 2005 in London and was a gathering of technology CEOs and CFOs eager to gain insights on how to lead their enterprise and their careers to more effective and positive outcomes.

About Cambridge Broadband www.cambridgebroadband.com

An active member of the WiMAX Forum™, Cambridge Broadband has pioneered the development of carrier-class, point-to-multipoint broadband wireless access equipment. The company is focused on delivering high quality multi-service networks to network operators with the best price-performance in the licensed band worldwide. Cambridge Broadband was formed in January 2000 by an experienced team with a strong record of successful innovation in broadband wireless design.

About VectaStar

Cambridge Broadband's 3.5GHz and 10.5GHz VectaStar system offers the most advanced combination of high bandwidth, high coverage and extended range on the market. It supports multiple carrier-class services simultaneously, each with robust QoS through the following customer premise equipment; Solo, Basic, Plus, Max, Max Fibre and Max ATM. The VectaStar has excellent non-line-of-sight capability and self-backhaul at ranges beyond 20km, making it a compelling solution for network operators looking for a fast return on investment.
